Our Packets.

We guarantee that our packets are large size and well filled with choice, fresh seeds. Our customers say that our packets are larger and better filled than most seedsmen's packets. We have no half size packets.

What we Warrant.

We believe that the seeds we offer are excelled by none in the world, yet our practical experience of many years fully assures us of the fact that crops may fail no matter how fresh and pure the seeds sown to produce them may be. Therefore, while we exercise the greatest care to have all seeds pure and reliable, it is hereby mutually agreed between ourselves and the purchaser that we are not in any respect liable or responsible for the seeds sold by us, or for any loss or damage arising from any failure thereof in any respect, further than that should they not prove as represented, we will refill the order without charge.

Our Prices

have been placed as low as possible for first quality and honest seeds besides the many Extras we shall continue to freely throw in.

In such instances we reserve the privilege of enclosing in the bags or packages such small packets as may be ordered, as it does not increase the transportation charges, and in consideration of this we will add enough extras to fully repay our customers for this kindness.

How to Send Money.
